**INDIVIDUAL CONSULTANT TO UNDERTAKE REVISION AND DEVELOPMENT OF THE FORESTRY CURRICULUM AND PREPARATION OF TRAINING MATERIAL FOR WOOD PROCESSING AND VALUE ADDITION AT NYABYEYA FORESTRY COLLEGE**

As the only forestry technical college in Uganda, the Nyabeyya Forestry College (NFC) aspires to boost its capacity to train forest sector professionals through the revision and strengthening the current forestry training programme at the College.

NFC also aims to introduce a new dedicated training program for technicians in wood processing and value addition. In addition to developing a new curriculum and a training manual, establishing the new program will also require installing relevant wood processing equipment at the College.

This new wood processing program will provide certificate and diploma training; it will also provide fee-based training services (professional development) on demand for people already working in the sector.

## PURPOSE OF THE ASSIGNMENT

The main objective of the assignment is to develop and provide all elements that form a complete curriculum (syllabus, content book, students’ book and evaluation criteria/forms to be used) for both forestry and wood processing programs at NFC. The new and revised curricula need to cover both the long-term diploma and certificate training, and shorter term on-demand training
